

2,500 FULL THROTTLE OUTLAW FORCE-FEED TRAILER

BOOMING WITH HEAVY-DUTY PRODUCTIVITY.

The 2,500 Full Throttle Outlaw force-feed pump trailer is built heavy-duty with robust steel and EPDM hose that maintains a compact and user-friendly design. It improves the liquid manure application process and provides greater flexibility when pumping from those hard-to-reach places.

- Reduced setup time
- Simple maneuverability
- Achieve high GPM
- Simple, low-maintenance design

FEATURES

INCREASED UP-TIME

The Full Throttle Outlaw delivers quick transport and set-up time, by eliminating the need for a tractor, pit pump, lagoon pump, hose, etc. to get the job done.

UP TO 2,500 GPM CAPABILITY

Bazooka Farmstar submersible pumps are integrated on the Outlaw's 35'+ boom structure, allowing you to reach 2,500 gallons per minute (GPM).

INDUSTRY LEADING (TRAILER) PUMPING DEPTH

The Full Throttle Outlaw achieves the deepest pumping depth of any boom trailer unit on the market, ringing in at a 19' below grade depth.

41' BOOM REACH

Our 'high-reach' model gives you an extra six feet to work with. The boom can reach over an 18' high slurry storage and touch the bottom of the storage unit.

2,500 FULL THROTTLE OUTLAW FORCE-FEED TRAILER

SPECIFICATIONS

STANDARD

- 15" Bazooka Farmstar Submersible Pump
- 35' Or 41' Triple-Section Boom
- Single, 500-Gallon Steel Fuel Tank W/ Baffle And Sump Area
- [2] 15,000 Lbs. Leaf Spring Axles
- [4] Used Super Single Tires
- Heavy-Duty Tube And L-Beam Frame Structure
- 30" Hydraulic Front Stabilizer Jacks
- Centralized Auxiliary Hydraulic Controls
