

BIGGER TOOLBAR. BIGGER PRODUCTIVITY.

The Titan 2 Toolbar is our largest front-folding liquid manure injection toolbar engineered to execute pass after pass. It's the cream of the crop when it comes to making full, effortless turns in the ground, continuously injecting liquid manure into the ideal root zone. When it comes to going big or going home, with the Titan 2 Toolbar, we went big. Literally, this toolbar comes in models up to 60' wide.

- **Widths from 39' - 60'**
- **Phantom unit spacing from 16" to 30"**
- **GPA Rates from 2,500 - 20,000+**
- **Compatible with Phantom 1XR, Phantom 2, and Phantom Edge injection units**
- **Front-folding toolbar design. Ability to inject liquid manure around turns.**
- **Larger tires for improved floatation**

FEATURES

PRECISE IN-GROUND TURNS

This toolbar makes precise in-ground turns at the end of each field pass, allowing you to make the most of your manure and leave the field with the farmer's approval when the job is done.

EXTREMELY ROBUST

Titan 2 brings an entirely new meaning to the word robust. Everything about it is bigger, badder and can handle the extremities you put your toolbar through. The body, the tower, the tires, the Bumblebee hose diameter. It's all larger. In fact, Titan 2 is constructed of approximately 50% more steel than a comparable Titan 1.

ACCESSIBLE FLUX MANIFOLD

The flux manifold ensures consistent and precise manure flow distribution throughout the system. The flux manifold's hydraulic gate valve can be opened to clean out the manifold on the go without leaving the tractor cab, or if you are outside the cab, you can easily access and clean out the blockage.

SPECIFICATIONS

STANDARD

- 700 series center section flotation tires
- 550 series gauge wheel flotation tires
- Phantom 1XR or 2 injection units
- Visual on/off lights for mainline shut-off valve and pig discharge
- Manifold clog indicator light
- One remote transmitter for hydraulic functions
- 8" swing arm with sweeping 90° elbows
- 6" pipe swivel
- 6" hose swivel
- 8" Flux manifold
- Rear ladder for easy access to the inside of the manifold
- 8" Krohne Flowmeter & cables
- Toolbars shorter than 48' receive [2] 36.5' & [2] 24' cables
- Toolbars 48' and wider receive [4] 36.5' cables
- Gas strut manifold lift assist handle
- Stainless steel knife gate valves
- 3" Bumblebee hose
- Automatic grease system
- CAT 4 bull pull hitch
- [3] LED tower work lights
- DOT lighting

UPGRADES

- 8" hose swivel
- CAT 5 bull pull hitch
- John Deere Harvest Lab 3000 Swing Arm Mount Extension
- Phantom Edge Injection Units
- Phantom 2 hydraulic downforce

DEDUCTS

- 8" swing arm and plumbing to 6" swing arm with sweeping 90 degree elbows and plumbing
- 3" to 2.5" Bumblebee hose
