

TITAN2

WIDTHS FROM 39' - 60'
WITH SPACING FROM 16" - 30"

● **INDUSTRY LEADING
IN-GROUND TURN**
capability for maximum efficiency
and reduction of surface manure

● **NEW TOWER POSITION**
for easier turn-arounds and
less wear on the toolbar

● **LED TOWER WORK LIGHTS**

FLUX MANIFOLD | STANDARD
with **NEW** manifold lift assist for a
more convenient clean-out & manifold
indicator light for quick clog detection

● **3" BUMBLEBEE HOSE**
with smarter hose routing
to minimize sagging and
reduce sand build-up

● **NEXT LEVEL FLOTATION**
we've accommodated a stronger built frame
and heavier tongue weight by equipping
the toolbar with 700 series center section
and 550 series flotation wing gauge wheels.
Next level compaction prevention, engaged.

● **IMPROVED GROUND PENETRATION**
with the ability to host **6 MORE**
Phantom units than the original Titan.
