

# APPLIED VARIMOUNT 350 PTO COMPRESSOR

## FASTER MANURE DRAG HOSE CLEANING. EASIER MAINTENANCE.

The Applied VariMount 350 PTO Compressor is a patented, innovative air compressor designed for powerful outdoor use and harsh environments. Its durable, compact construction allows for easy tractor mounting and mobility. As a tractor PTO-powered unit, it provides cost and environmental benefits by utilizing the tractor's engine instead of a dedicated diesel engine.

- Superior output of 350 CFM
- Fully air driven with no electrics
- Easily mounted onto the rear or front linkage of your tractor
- Outstanding value
- Navigate any terrain

## FEATURES

### UNMATCHED HOSE CLEARING TIME

The VariMount 350 PTO Compressor boasts an impressive output of 350 cubic feet per minute (CFM), enabling it to clear even the thickest manure from hoses at an astounding speed.

### UNBEATABLE RELIABILITY

The VariMount 350 PTO Compressor is fully air driven with no electrics. This makes for a far more reliable, robust machine for the outdoors.

### OUTSTANDING VALUE

VariMount 350 PTO Air Compressor is a fraction of the price of its nearest diesel engine compressor rival.

### UNEQUALLED VERSATILITY

The VariMount 350 PTO Air Compressor is designed to be mounted either on the front or rear of any tractor, offering versatility and compatibility with various tractor configurations.

### EXCEL ON ANY TERRAIN

With the VariMount 350 PTO Air Compressor securely mounted to your tractor, you gain the freedom to traverse any terrain without the need to tow a bulky compressor.
